EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The amendment to the specification on page 1, after the title, on line 2, filed December 2, 2003, was deleted and replaced with the following section:

--CROSS-REFERENCE TO RELATED APPLICATIONS

This application is a divisional of and claims priority from the U.S. Patent Application No. 09/425,470, filed on October 22, 1999, now U.S. Patent No. 6,690,629. --

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited on the PTO-892 each disclose a recording disc having recording tracks formed thereon.

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest a recording disc for recording information data on a recording surface, the disc comprising: **a first area including a plurality of recording tracks arranged at a track pitch smaller than a beam radius of a reading light beam**, the reading light beam being irradiated onto a recording surface to read recording information data; and **a second area including a plurality of recording tracks arranged at a track pitch larger than the beam radius, wherein the first area and the second area are concentrically alternatively located.**
(bold language emphasized)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 703-308-1549.
